

## AMM 2011 FG 1B: Distance Learning/Distributive Learning (DL) Compensation.

Most PME being conducted today requires a DL (phase I) Phase with the utilization of the internet.

Our WOs should be allowed RC points to be added to their Retirement Points Accounting System (RPAS) (DA Form 23B) Statement to give the soldier credit for time in completion of this required training. Our RC WO are expected to complete this training during their own personal time off duty without pay, compensation or recognition.

Recommend that as soon as one of these soldier complete this training that they are offered a DA Form 1380 giving them credit for that training similarly to all other Army training.

Secondly, consideration should be given to paying the soldier for this time based upon the hours recommended by the school to compete this required training. This would be offered to the traditional/M-day WOs.
